1. This special meeting was called by the Chairman in order to advise the Committee of a request from General Cabell and Mr. Bissell that there be prepared a paper which would explain the way in which intelligence to be derived from the project would really make a vital difference in terms of national security.

2. As a result of the discussion and a brief outline, it was agreed to meet to discuss the matter further on Tuesday at 2:00 p.m., each member bringing such written or oral comment as he would care to submit to the Committee.
